

# Point of Sale and Back-Office Software, Your Way

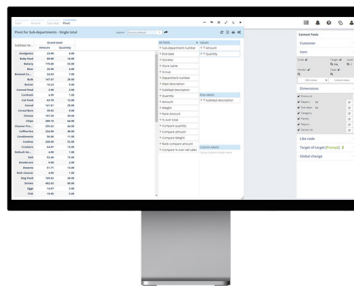

LOC Software's mission is, simply, to develop the best retail software solutions. Unlike other options on the market, LOC's ThriVersA software platform is designed for ultimate flexibility. It allows retailers to choose the software features and functionality necessary to streamline processes, freely share data wherever needed, and deliver in-store and digital experiences that consumers demand.

## What Sets LOC Apart

### Flexible Software

LOC Software gives retailers the functionality they require now and the agility to meet needs in an evolving market and stay ahead of technology advancements.

### Easily Configurable

LOC certifies its resellers to know every detail of its software to expertly configure screens, format reports, and manage data.

### Browser-Based Software

With LOC, retailers are never limited to working in the office. They can access data and manage their businesses from any location.

## A Proven Solution

LOC Software's foundation is a blend of industry best practices, business logic, and data accessibility for smart decision-making. Every day, **more than 10,000** LOC Software systems help retailers around the world successfully manage their businesses.

# ThriVersA: The Only Software Retailers Need

LOC Software's all-in-one ThriVersA software suite empowers retailers to choose from essential modules that enable them to increase visibility into their businesses, intelligently use data, and operate most cost-effectively.

## Point of Sale

Browser-based, hardware-agnostic software for selling products and managing a growing business.

## Enterprise

Centralized management of all POS and retail management systems and easy access to cloud data.

## Mobile

POS and back-office functionality on any device to enhance CX and streamline inventory management.

## Self-Service

Customer-facing solutions that keep lines short when ordering, checking out or enrolling in loyalty programs.

## Loyalty

The most flexible loyalty program software available including a sophisticated marketing toolkit.

## Payments

Robust payments functionality to optimize checkout experiences with choice and data protection.

## Supply Chain

Software designed to minimize shrinkage and manage inventory, including with perpetual models.

## eCommerce

Enhanced online CX with advanced lookup options, shopping cart integrations, and frictionless checkout.

## Fuel

Management of non-branded fuel sales and other types of sales, all from a single software platform.

## Warehouse

Advanced electronic invoicing capabilities for B2B and house accounts, providing real-time information.

# Industry Solutions

LOC Software's platform comprises tools to enhance front-end operations and customer experiences, back-office and supply chain efficiency, all accessible from any connected device via web browser.

## Grocery

LOC Software's Grocery Store Solutions reflect 30 years of industry experience and best practices and are designed with the flexibility to keep up with the rapidly evolving industry today. ThriVersA loyalty, provides the most flexible and unique rewards, and ThriVersA Mobile and ThriVersA Self-Service provide line-busting capabilities.

## Natural Food

ThriVersA empowers natural food retailers with a system that deploys quickly and adapts to their growing businesses. ThriVersA Loyalty allows them to manage co-op or membership programs, and ThriVersA ePOS, the cloud-based version of LOC's robust point of sale software, allows retailers to provide service and manage their business from any device.

## Convenience Store

LOC allows C-store operators to manage fuel, grocery, made-to-order foods, tobacco products, and lottery ticket sales from a single system. ThriVersA Fuel with LOC's POS functionality creates a robust non-branded fuel system, and ThriVersA Self-Service and Self-Checkout help keep lines moving and increase customer satisfaction.

## Specialty Retail

With LOC Software, liquor, pet, hardware, and other specialty retailers can manage detailed inventory, keep shrink to a minimum, and effectively operate an omnichannel business. ThriVersA also allows enterprises to control data flow and communications throughout the store or across the entire enterprise.

## Pharmacy

Pharmacy retailers have the advantages of a unified point of sale system that allows them to manage over-the-counter, pharmacy and general merchandise sales. ThriVersA Supply Chain also allows pharmacies to manage complex inventory, including high-turnover and regulated products, and it integrates with leading pharmacy solutions for compliant operations.

## Contact LOC Software to Connect with a Certified Reseller Near You

With LOC Software, no retailer has to configure and implement their retail management and POS system on their own. LOC has built a network of skilled reseller partners with technology and industry expertise, to provide the information, guidance, and support necessary for success with the solution.
